## 6 reasons to accept bitcoin as a **means of payment**

Bitcoin **increases publicity** of your shop and therefore helps to boost sales

The **integration is** simple, quick and **free**

**No currency exchange necessary** – your customers simply pay with their smart-phone

You **don't need to bring cash to your bank** because your bitcoins are directly paid to your digital wallet

**The payment is confirmed instantly** in your wallet, no charge-backs possible

As a payee you incur **no fees**, your customer pays a small bitcoin transaction fee to the bitcoin network (approximately USD 0.01)

## 3 simple steps towards a bitcoin **integration**\*

1

Get free online **bitcoin wallet**, your wallet is available instantly and serves like a bitcoin bank account (e.g. from [blockchain.info](https://blockchain.info))

2

Print your **QR-Code with your bitcoin address** and position it next to your cash register

3

Show your **bitcoin accepted here sticker** at your shop entrance and you're all set 🚩

Let us know when you're set! We will list your shop in the **bitcoin Wiki** and the **Coinmap** so that Bitcoin users become aware of you

## **Customers** pay in only one step

The **customer scans your QR-code** with a smart phone and enters the amount

**Check your incoming payment** in your wallet with a computer or smart-phone
